The ‘Game Changer’ S1000D IETM

MDDV (Maintenance Digital Data Viewer) is a complete and modular, next generation IETM. MDDV provides end-users with the most effective and easy to use IETM.

- MDDV can be provided on the internet, GovCloud, over secure networks, and on standalone laptops/tablets
- MDDV is built to provide future growth such as integration with external data systems, integration with aircraft systems, automatically provide usage information and support latest IT technologies

Certified for Air Force Network
MDDV version 11.x is certified in accordance with (IAW) AFI 17-101 as application software connected to the AF Network (AFNET) and AF SIPRNet and placed on USAF Evaluated/Approved Products List (AF E/APL).

True Zero-footprint & Agnostic
MDDV (when connected), requires no installation, no maintenance and no updates, including full support for dynamic 3D graphics. It runs on any major browser (IE11, Edge, Firefox, Chrome and Safari). You can use MDDV on any computer that supports those browsers (Windows, Mac, iOS, Android and Linux).

Best Look and Feel
The MDDV user interface is clean and clear. It is customizable for various data types (Procedural, Troubleshooting, IPB/IPD, Checklists, Process, Workcards, etc.)

Zero Wait State (ZWS) IETM - Any page is a second away!
MDDV is the only IETM with Zero-Wait-State (ZWS) technology. Any page, or module, or link will open in MDDV in a second. If you find it hard to believe - ask for a demo. The size of the data and the number of links do not affect the performance - even very large data sets are this responsive.

Full support for the full S1000D Functionality Matrix
Yes, MDDV can support any feature listed in the S1000D Functionality Matrix, for S1000D for all issues, including 4.2.
Any page is a second away™

WARNING

The MDDV demo is transformative.
We cannot erase it from your memory.
